

# How to Use FamilySearch.org

FamilySearch.org is a **free** genealogy database operated by the Church of Latter-Day Saints. It is based on the collection of the Genealogical Society of Utah's Family History Library. The collection started in 1894 and has genealogical resources from around the globe. As of 2022, there are over 2 Billion records digitized and available in addition to non-digitized materials available through the Family History Library and its satellite locations.

Recommended Areas to Look At:

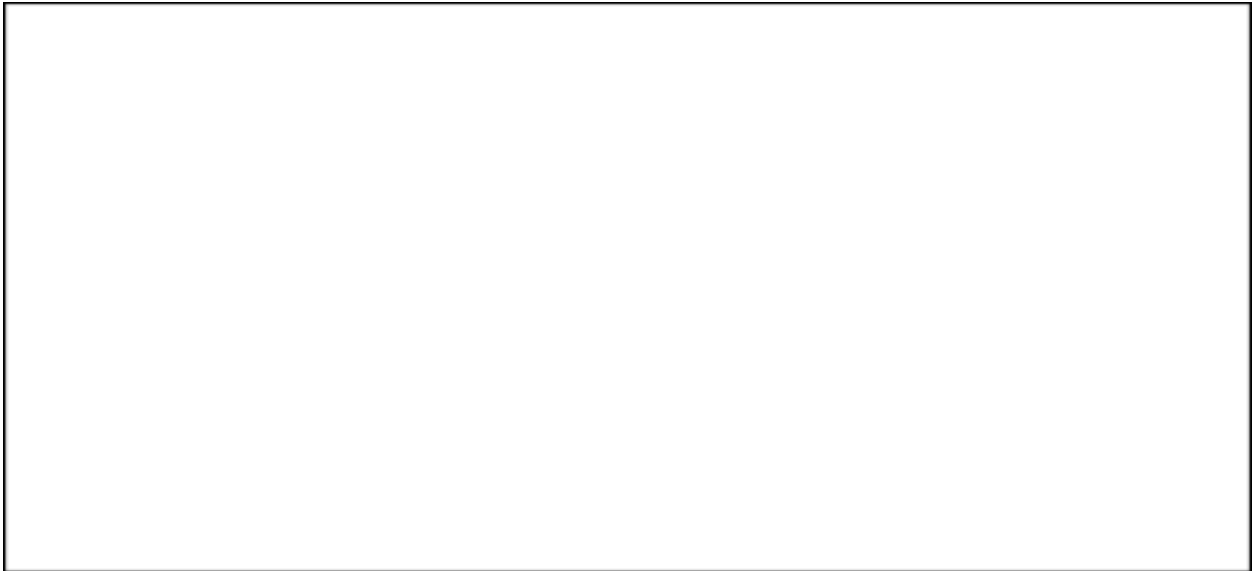

- Ancestor search: Search→ Records
- Card Catalog: Search→ Catalog
- Research Wiki: Search→ Research Wiki
